

PRESIDENT'S MESSAGE:

Happy Labor Day to All!

It's hard to believe that the summer is coming to a close. The quilt shops are all showing wonderful fall projects and the winter holidays are just around the corner! Remember to get your seasons challenge together for the October meeting. It is sure to be a quilt show in itself. Kelly will be posting sign-ups for hors d'oeuvres and desserts. Can we all write up the recipe for what we are bringing? I know that we have tried to do a cookbook before but this might be an easy jump-start to making that project really happen.

I have told you on a few occasions that this year is my "stretch" year. I am learning new things and doing projects like needle punch and wool applique that I never had the interest in getting into. Wool is a whole new stash to build! Last night, Betsy taught me how to loom knit hats and scarves. Watch out, now I will be hoarding yarn!!! Speaking of Betsy Smyth ... without this presidency I would not have spent as much time with Betsy. She has always been a friend, a fellow quilter and Group Therapy member, but through us working together on the board, we have really gotten to know each other so well. You all know that I greatly admire her and think she is a "rock star VP". Think about the valued friendships that can blossom through working together in a leadership role. When the nominating gals come calling, think about how you can best serve an organization that brings so much to each of us and our community.

Operation Baby Blanket:

At the August meeting, I was presented with many, many blankets and afghans. Your generosity is amazing. Thank you all!! I will be collecting blankets through September. At that time, I will coordinate with my Guard contact to see how many more are needed. – Lorie Leonardi

This project provides homemade blankets (quilted, knit or crocheted) to babies who are born when a parent is deployed in the New Jersey National Guard. The Guard is anticipating a large deployment in the autumn, so there is a need for more blankets. You can make your own blanket or sew one of the Philanthropy kits. They can be any color, not just red, white and blue, and should be an appropriate size for a baby. A good size is 38 by 45 like the Quilts for Kids quilts.

Looking Ahead:

Thursday – Sunday, September 18-21, 2014: Pennsylvania Quilt Extravaganza XXI. For more information, go to: [Pennsylvania National Quilt Extravaganza XXI](#)

I LOVE POLYESTER – REALLY!**A Sad Story by Jackie Kaizar**

A few months ago, probably at one of our last meetings at the Church of God's Love, one of our members donated a pile of fabric to the guild. The early birds of the membership swamped the table and scored the best yardage for their own stashes. I'm sure that many pieces will appear in upcoming Show and Tells as scrap quilts. Just one fat quarter can spark a memory or inspire a masterpiece. Some may even become part of a baby quilt for a little one to cuddle and love for years to come. Perhaps a few blocks will grace a bride's wedding quilt, which will still be cherished on the couple's 20th anniversary. What a legacy a few scraps of fabric can bestow. But we know that already.

By the time I sauntered over to the table, it was really picked over, with only a few sad pieces of yardage left over. I felt like I was looking at the leftovers at a yard sale. You know, the things that no one will buy, even for a few cents, and are eventually put out in the trash pile for pickup the next day. It was a very sad table indeed. But then I saw a brown polka

dot piece of polyester looking the most dismal of all. Of course, the quilters of the group (which is everybody in the guild) turned their noses up at that polyester fabric, and I can understand this completely. Let's face it, polyester is a petroleum by-product. What self-respecting quilter would use it in one of their beautiful quilted creations? Today's quilts are cotton, inside and out. Besides, did you ever try to quilt on polyester? Not easy, I can tell you, and I have personal experience, sorry to say. But being a lover of all things polka dot (you didn't know that about me, did you?) I saw possibilities. I thought to myself, "Self, this just might make the perfect dress". Thus began my Pygmalion Project. And so I grabbed that sorry piece of fabric and brought it home for further inspection and contemplation. It was 2½ yards long and in perfect condition. Well, that being said, can anything damage polyester, except maybe a match? I searched through my sewing patterns and found an easy princess lined number with cap sleeves that I knew I could whip up on my serger.

Now here is an aside about my serger. Many years ago, I bought an old serger from someone at our quilt show. It was one of those heavy, kick butt, all metal machines that will probably last at least an additional 50 years. I made all kinds of great things with it and mended garments that belonged to friends and family. Then one day, I came across a newer (20 years old) fancy schmancy serger and bestowed old Nellie to my daughter Tracey, who has two little boys who are always wearing out their pants and she is left with the inevitable endless pile of mending to do.

And so, I sewed in the zipper and serged the rest, easily finishing my new dress in a few hours. The thrifty side of me loves the fact that the dress only cost as much as a zipper. I feel like I saved the landfill from another piece of polyester through my recycling. And besides, I really like it, although I don't want to wear it next to my girlfriend's pet Dalmatian, Marcy. We would look like twins!

I suppose that the moral of the story is that one woman's trash is another's treasure, even if it is polyester.
